Attn: Chris McAuley RE: RFQ No. 21-244 Construction of the Gilbert Trunk Sewer No. 2

Dear Chris McAuley,

Complete Utility Contractors ("CUC") wishes to thank you for the opportunity to present this response to RFQ No. 21-244.

CUC is a fully bonded multi-disciplinary civil infrastructure and municipal construction company. It is our vision to provide exceptional service and expertise in the delivery of complex civil infrastructure projects in the region. CUC's project delivery team has over 190 years of combined management and construction experience working on Metro Vancouver infrastructure projects and our team members have been involved in some of the most complex civil pipeline projects built to date for the corporation.

Members of our proposed project team for the Gilbert Trunk Sewer No.2 all have experience working on previous phases of the Gilbert sewer and possess the technical knowledge required for completing complex sewer bypasses and a proven history of finishing urban pipeline projects.

CUC endeavours to make Metro Vancouver a valued partner and establish a long lasting and mutually advantageous relationship.

In addition to the information provided in Section 1-4 of this response, please visit our website at completeutility.ca to see more details on our completed and current projects.

Regards,

A handwritten signature in black ink, appearing to read "MAT", written over a light blue horizontal line.
